

Children's Ministry Fall 2021

(until Thanksgiving Sunday)

NURSERY: infants

The Nursery will be open for one family to use at a time un-masked OR two families - one on either side - masked (adults) At this time we will not be staffing the nursery, but it will be fully available for changing, nursing and wriggling with supplies available to sanitize. Infants are very welcome in the service!

**WHEN YOU
ARRIVE!**

EVERYONE will go straight to the sanctuary after screening

Preschool: 1's to 3's

This Sunday we are not able to provide a separate Preschool program safely and effectively without parental involvement. We are inviting parents with preschoolers to join the School Age program **WITH THEIR CHILD** and enjoy the worship, story and reflection activity which is more geared toward a child's engagement by guiding their child through it and keeping them socially distanced from the other children.

No mask required for child. Mask required for parent

School Age: JK to Grade 6

After worshipping with their families with the **WHOLE CHURCH** for a while, we are inviting School aged kids to join a children's worship segment which will take place in the Lower Sanctuary. The children will be invited to follow Yvonne and the children's ministry team from the sanctuary to that space. Please wear masks.

We will pause in the foyer to take attendance as well as explain what we will be doing. Parents are encouraged to come to the foyer with their child for that pause if it would help their children transition and be comfortable with the new environment and pattern of events.

**Going
forward**

This plan will change and morph as restrictions change and the children's ministry team is more comfortable; feeling there is less risk to their health and safety. We will inform you continually of those changes.
